## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed August 27, 2003 have been fully considered but they are not persuasive. The applicant alleges that the rejections of the previous Office Action are "groundless". The Examiner disagrees. It is not the Examiner's position that Holland provides a number of bins. Holland provides a number of housings with storage provided by a drawer in each housing and means to interconnect housings, see Figures 3a, 3b and 4. Jantzen and Sheng also show a housing with storage provided by a plurality of bins in the housing that are rotatable at the same time. The applicant argues against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

### ***Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 12-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jantzen as applied to claims above, and further in view of Hollander and Sheng. Jantzen is cited showing a container unit including a housing 100 with bins 10, 20, 30, 40 connected together for movement between coplanar and angled positions. Jantzen discloses that the invention is suitably produced in modular form from sets of troughs or bins that maybe arranged back to back or in parallel, col. 6 lines 50-55. Jantzen discloses a handle 150 that can be folded or removed and equivalent to the applicant's claims 17-19 to a tab or claim 20 a handle. Jantzen fails to show a connector on the outside of the housing or a clip holding means. Hollander is cited showing another container device in which rows of modular housings 12 are connected by connectors 46-52 on opposite sides of each housing for the purpose providing a stable configuration. Sheng is cited showing a clip 30 for the purpose of holding the bins closed. Since the references are from the same field of endeavor the purpose of Hollander and Sheng would have been obvious in the pertinent art of Jantzen at the time of the invention it would have been obvious for one having an ordinary skill in the art to have modified Jantzen with connectors 46-52 on opposite sides of modular units

for the purpose providing a stable configuration in view of Hollander and with a clip 30  
for the purpose of holding the bins closed in view of Sheng.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time  
policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
